

## Mustang conversion kit (not a complete installation manual)

### Open and remove centre console/dash

For detailed removal instructions please consult your garage manual.

You may need special dash tools to remove the plastic part without scratching.

Consulting certified installer or garage is recommended..

Expected installation time 15-30 minutes for a skilled garage.

### Install the new centre console and Connect cable harness.

1. Plug and play cable harness

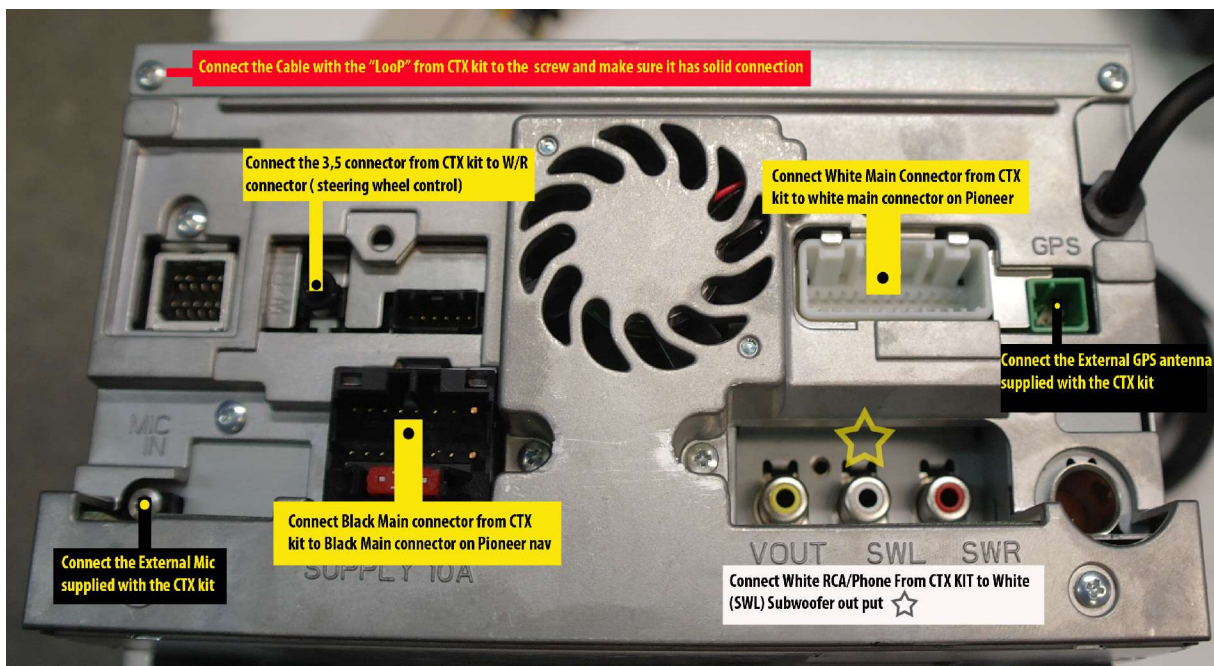

2. No soldering

3. Fast installation

4. German, English + 16 others languages and EU maps

5. Retains most factory functions

6. Pioneer navigation and sound system

The new centre console needs to be set to Mustang and options.

.... Done !!!!!

**Please Note:**

- Our kit can not be bought elsewhere, we make the cables ourselves. The original kit on the internet does not have any ready to plug & play cables, we have.
- We have several options:
  - A. "Only Touch",
  - B. "Classic" and
  - C. "Combination"

centre console. You can choose among a line of centre dash for your car.

- Each one of the comes with full warranty and support
